

Brief Film Series
- Strategic Springboard

This is a general overview for the Brief Film Series at OZZbox3.com, a film portal to build trust.

The Brief Film Series is tailor made films that build trust between CEO's and audiences outside the boardroom, effectively acting as a springboard for strategic plans and for personal missions to manifest outside the company. Audiences are built around OZZbox3.com, a film portal featuring a story about a City of London bank executive on a mission to build trust in the world.

Real CEO's join his story to measure the effectiveness of their strategic plans. Real world experiences, shared emotions, and alignment inspire audiences to help.

A structured creative program is delivered to CEO's by OZZ Media Corp, the portal producer. It features three creative elements and is developed according to the requirements of the strategic plan with a particular focus on mission, vision, and goals. The program is tailored directly with the CEO.
