---

OZZbox3.com is future screens built on a future platform to bridge executive's strategic plans. Future platform features 3-sites and 3-tools to bring executive together with people outside the boardroom:

Future Briefs:

Scripts built for executive are integrated into a story about a London Square Mile bank executive on a mission to build a good future with words on three sites that begin at OZZbox3.com:

Executive – piggyback to understand where people are headed

Outsiders – guided toward the future by story characters and executive's strategic stories

Future Script:

Outreach shares script elements with audiences, online and face-to-face. Demonstrates how mission, vision, and goals help achieve his mission:

Executive - solicit inputs regarding strategic plan and integrate into operations

Outsiders – inputs submitted according to scripts and storyboards displayed at events

Future Movies:

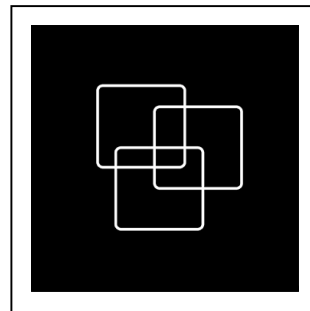

Inputs are integrated into final movie scripts and released over time to measure effectiveness of executive's mission, vision, and goals:

Executive - integrate results from outreach into movies. Measure.

Outsiders - goals align to advance strategic plans
