

Mission Map

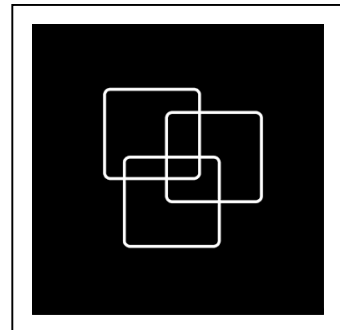

Adaptation - Outreach - Execution

Mission Map is a proprietary process that adapts Executive's strategic plans into stories that serve as a vehicle for outreach and execution. Consumers are directed through a story router called The Future Hub at OZZbox3.com. The main story character connecting them to corporations is a City of London bank executive on a mission to build a better future with everyone. Mission Map is how the corporation integrates its mission, vision and goals into his stories and ultimately into the minds of consumers. It is the tailored formula that binds the goals of the corporation with the goals of consumers as each builds a better future together.

Minimum Viable Product (MVP)

OZZbox3.com is a Minimum Viable Product, or (MVP), which means its base form evolves according to the plans set out by its producer, OZZ Media Corp. The build out of OZZbox3.com features a tailor made combination of stories, web sites, and systems bringing accelerating benefit to Executive as each develops.

OZZbox3 is the future hub at OZZbox3.com
