OMC is OZZ Media Corp. OZZ Media Corp is Producer of OZZ.

Our Mission:

To build trust in the system by bridging the gap between the fulfillment of company director duties and public trust by testing strategic narratives before they create friction.

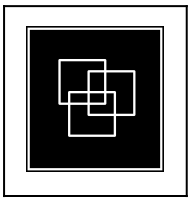

Our Vision:

To build OZZbox3.com, the Fix-It-System to fix the system with strategic narratives and true fiction that truly guide us.

OZZ Media Corp was incorporated by John Pineau on April 15th, 2003 with the mission to build trust in the system. As the company built its strong reputation for insight and hard work, John developed OZZ signature system assets and applied them to industry to produce OZZbox3.com, a minimum viable product (MVP). Formal and informal strategic planning, media production, and data gathering campaigns helped shape it.

Clients include a highly regulated, industry leading, family-owned aviation company called Aero Recip Canada Ltd, GE Capital Financial Solutions, and Protegra, Inc, an enterprise software developer specializing in financial services.

The result is OZZbox3.com, the Fix-It-System, now live and available as an MVP for ongoing utility and refinement.

Trust the system by
fixing it with fiction
first at OZZbox3.com
