
OZZ Entertainment is future-minded film and music introduced by Future Briefs, an ePub eBook series that introduces ideas to find the future with everyone. OZZ Entertainment is fiction with corporate and personal missions integrated into storylines. OZZ Entertainment is Followers becoming Leaders by sharing ideas that help both sides succeed.

Leaders and Followers begin by registering for Free Briefs. Free Briefs are designed to entertain and to inform about entertainment releases, early adopter CEO engagements, online and face-to-face events, and other incentives for sharing ideas chosen by the CEO. Registering for Free Briefs qualifies Leaders and Followers to receive Free Brief News, which provides the latest Future Brief, announcements regarding our progress in the boardroom, and insights into future announcements about the future.

More to come as the future becomes today...
