

The Screens Program for CEO's helps implement strategic plans by creating tailor made stories that build trust. The program is part of OZZbox3.com, a film portal to see the unseen.

The core driver of public interest in OZZbox3.com is an original story about a City of London bank executive on a mission to build trust in the world by inviting outsiders to align their personal mission with corporate missions on some level. Shared ideas build loyalty around each other's goals.

Strategic Plan integration enables the CEO to verify strategic assumptions and adjust for execution. The Strategic Plan is integrated using tools unique to the platform producer, OZZ Media Corp:
